

ACHESON

BUILDERS

An Artist's Eye, a Craftsman's Touch

Case Study

At our client's cottage, after pipes froze and water damaged everything, a complete tear-out was needed. Then the clients had the chance to re-build in a beautiful new style, collaborating with Jim Acheson and his design team!

Transformation: New floors, walls, lighting, colors, tile, custom cabinets, counters

Above, water damaged Powder room, before Acheson took it on

Custom Shelves, vanity, curved mirror, curved glass backsplash, stone tile

Serendipity—how frozen pipes and water damage led to a complete cottage remodel!
